GENERAL NEWS

General News > John Curley Joins RESOLVE

John Curley Joins RESOLVE 30/06/2011

John Curley has joined the RESOLVE as commercial director for RESOLVE Salvage & Fire (Europe), Ltd. (RSFA). In this position, Curley is the corporate representative and industry liaison for RESOLVE and its subsidiary companies, facilitating delivery of services to the company's OPA90 clients. He also is to promote RESOLVE's worldwide marine emergency response, salvage, wreck removal and other marine services.

Curley will be working from the RESOLVE U.K. operations base in London.

Curley joined RESOLVE following a 26-year career with Lloyd's Register (LR) where, as head of Global Sales and Marketing, he managed LR's global business development and sales initiatives, specialising in maritime consulting services for ship owners. He brings extensive experience in international business development to RESOLVE, with emphasis on the Southeast Asia, Middle East and Africa ship-owning

communities. Throughout his shipping industry career, which began as a marine engineer with BP Tankers, Curley has been able to develop a wide range of marine business opportunities with a majority of key global ship operators and ship yards, applying his unique blend of regulatory experience, technical knowledge and commercial focus.

Curley is a Chartered Engineer with the UK Engineering Council and a registered professional Engineer with the Engineering Council of South Africa. He is a Fellow of both the Institute of Mechanical Engineers and Institute of Marine Engineering, Science and Technology (IMarEST).

The risk of drilling in Alaska and polar areas is...

- Reasonable
- Exaggerated
- Something that needs more research
- Very high
- Other (please comment)
